endeavour sab

The versatile and dependable Endeavour 500 sets the standard in the 16½ft fast fisher market. What really separates the Endeavour 500 from its competitors is the hull's stringer system which incorporates 15 separate buoyancy chambers – rendering the boat virtually unsinkable and ensuring a safe and stable ride through choppy seas.

The Endeavour 500 is ideal for keen sea and lake anglers with plenty of deck space and deep freeboard. The deep freeboard makes it a particularly incredibly safe and sturdy boat for families with younger children.

Speeds in excess of 35 knots are achieved when powered by a 60HP engine, transforming the Endeavour 500 into excellent sports boat. And because of its size and weight, the Endeavour 500 is the perfect boat to tow with a family car and single handed launching and retrieval.

endeavour seajEEP

SWIFT, POWERFUL and SPACIOUS, the Endeavour SeajEEP is the best 15ft fast fisher on the market. Built in the UK to the highest quality with only the best of materials, this versatile boat has something for everyone.

With plenty of deck space, the SeajEEP is ideal for keen sea and lake anglers, and its deep freeboard makes it an incredibly safe and sturdy boat for families wanting to take the children for an adventure on the water.

Because of its size, weight and hull design, the SeajEEP can be powered by a very modest sized outboard for inland waterways, through to 40HP for coastal trips.
